Key Features

- Great mix of clover that will provide quick cover and last for years

Establishment

- If interseeding into existing grass, be sure to mow or graze the field low. This opens up the soil for seed to soil contact. Can be broadcasted or drilled, does not tolerate deep planting. Calibrate your drill or spreader for accurate rates.
- **Seeding Rate-**
8-12 lbs/ac
- **Planting Depth-**
surface to 0.25"
- **Target Harvest Height** 8-15" grazing, at 20% bloom for haylage
- **Target Residual Height For Regrowth-** 3-4"
